

SRT621 – Winter 2022

Lab #6

Worth: 6% of final grade [6 marks]

Assignment Due: Refer to the deadline on learn.Senecacollege.ca

Submission Instructions:

- 1) You are supposed to create and submit
 - one single file called lab6.js
- 2) You are provided with
 - Lab6.html
 - Your lab will be corrected/graded by using the original html file so changing the html file and submitting it will not help with making any marks.
- 3) Submitting any extra files may cause **losing marks!**

Question 1 [2 marks]

- inside the Lab6.js write a code to
 - Calculate the number of list items in the yellow pane [0.5 marks]
 - Calculate the number of links in the blue container [0.5 marks]
 - Update the pink container with the result of the above calculations. [1 mark]

Question 2 [2 marks]

- inside the Lab6.js write a code to:
 - Copy the text (every visible text) inside of the blue container [1 marks] to the grey container [1 marks].

Question 3 [2 marks]

- **Without using innerHTML**, inside the lab6.js write a code to:
 - Add a new paragraph after the paragraph #9.
 - The container with the dotted border must look like the following after your code runs.
